### **FDOT to begin mill and resurface of State Road 200 in Callahan**

**Callahan, Fla.** – The Florida Department of Transportation will begin a milling and resurfacing project on State Road 200/U.S. 301 from the railroad overpass to Stratton Road in Callahan beginning Monday, March 4.

This work will include milling and resurfacing the roadway, working on curbs, gutters and sidewalks, as well as updating traffic signals and highway signage.

Contractor Duval Asphalt is expected to complete this \$1.6 million project in summer 2019, weather and schedule permitting.

The contractor will perform daytime work Monday through Friday. Paving work will occur overnight Sunday through Thursday nights. No lane closures will be permitted Monday through Friday from 6:30 a.m. to 8:30 a.m. Lane closures are not permitted on school days one hour before classes begin and one hour after students are released.

Traffic will be maintained in accordance with FDOT design standards throughout the project. When lane closures are needed, drivers will be alerted in advance via portable, changing message signs. Lane closure notices are available online at [www.nflroads.com](http://www.nflroads.com).

The Florida Department of Transportation urges motorists to always follow the speed limit and stay within the limits of orange cones and barrels while traveling through construction zones.
