Dunn Avenue from Biscayne Boulevard to I-295 resurfacing and improvements starting soon

Jacksonville – The Florida Department of Transportation will resurface and improve 3.4 miles of Dunn Avenue (State Road 104) from Biscayne Boulevard to I-295 starting this week, weather permitting.

The project consists of resurfacing the roadway and repairing damaged drainage inlet tops along the corridor. Safety and traffic operation improvements include replacing embedded traffic signal road sensors (detection loops), enhanced crosswalks and upgrading sidewalks and handicap-accessible ramps. In addition, countdown audible pedestrian timers will be installed at various intersections including Lem Turner Road.

Construction will occur Sundays through Thursdays. Lane closures are not permitted from 6 a.m. to 9 a.m. or from 3 p.m. to 7:30 p.m., or also near a signalized intersection (excluding Duval Road). At the Garden City Elementary School zone (at Duval Road), no lane closures are allowed from 2 p.m. to 7:30 p.m.

Crews will start mobilizing for the project Thursday, December 14, with lane closures starting the week of January 8. The \$2.5 million project is scheduled for completion in spring 2018, schedule and weather permitting. Duval Asphalt, Inc. is the contractor.

For more information regarding construction projects, please visit www.nflroads.com or contact FDOT personnel at 904-831-FDOT (3368).

The Florida Department of Transportation strives for safe construction zones. Travelers should always follow the speed limit, be aware of heavy equipment and stay within the limits of the orange cones and barrels.
