Eastbound Mathews Bridge to see closure this weekend

Jacksonville – Jacksonville’s Mathews Bridge will see an eastbound bridge closure from Friday, January 19 at 6 p.m. until Sunday, January 21 at 6 a.m. as crews continue to rehabilitate portions of the deck. Westbound drivers will see an inside lane closure on the bridge.

During the closure, drivers will be detoured to the Hart Bridge. Message boards and signs will direct traffic through the detour and law enforcement personnel will be staged to prevent access to the eastbound lanes of the Mathews Bridge. Mariners will not be impacted by the closure.

This project includes a partial deck removal and replacement by construction crews. The work is necessary to extend the service life of the structure and maintain quality standards required by FDOT.

This project is scheduled to be completed in less than 60 days, weather and schedule permitting.

The \$494,885 project was awarded to Orlando R& B, LLC.
