FDOT to Hold Construction Open House for I-10 Widening Project

JACKSONVILLE, Fla. – The Florida Department of Transportation (FDOT) will host an open house Thursday, February 4 from 4:30 to 6 p.m. to share information and answer questions regarding the I-10 widening project from west of I-295 to I-95.

Project staff will be available online at nflroads.com/COH or by phone at **(415) 655-0053** using access code **864-370-935**

Citizens who are unable to participate virtually or by phone may attend the open house in person at the FDOT Urban Office Training Center located at 2198 Edison Avenue, Jacksonville, FL 32204. Project documents and information on how to participate online are available at nflroads.com/COH.

The project will add two general purpose lanes in each direction between I-295 and I-95, construct noise barriers at prescribed locations, reconfigure exits to reduce weaving and widen bridges at 19 locations.

FDOT hired Superior Construction to complete this \$176 million project in early 2025, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

Improve Safety, Enhance Mobility, Inspire Innovation

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
