FDOT to Hold Open House for Southside Boulevard at Gate Parkway Intersection Improvements Project

JACKSONVILLE, Fla. – The Florida Department of Transportation (FDOT) will host an open house Tuesday, May 25 from 4 to 6 p.m. to share information and answer questions regarding the upcoming intersection improvements project.

Project staff will be available online at nflroads.com/COH or by phone at **(914) 614-3221** using access code **951-412-056**.

Citizens who are unable to participate virtually or by phone may attend the open house in person at the FDOT Urban Office Training Center located at 2198 Edison Avenue, Jacksonville, FL 32204. Project documents and information on how to participate online are available at nflroads.com/COH.

The project will reduce congestion and wait times at the Southside Boulevard at Gate Parkway intersection through a series of additional lanes, improved signal timing, and reconfiguration of the intersection.

FDOT hired Watson Civil Construction to complete this \$7.4 million project fall 2022, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

Improve Safety, Enhance Mobility, Inspire Innovation

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
