FDOT to Host March 25 Hybrid Public Hearing for Proposed Changes to Timuquana Road

JACKSONVILLE, Fla.- The Florida Department of Transportation (FDOT) is scheduled to host a hybrid public hearing Thursday, March 25 from 4 to 6 p.m. to discuss proposed changes to Timuquana Road (State Road 134).

As part of a planned resurfacing project on Timuquana Road from east of Blanding Boulevard (State Road 21) to U.S. 17, FDOT proposes closing the median opening at Water Oak Lane. The project will also include installing new pavement markings and signs, including the addition of a buffered bicycle lane in both directions, as well as drainage improvements and curb and sidewalk repairs.

FDOT staff and consultants will be available from 4 to 6 p.m. to answer questions and accept comments. A formal hearing and public comment period will begin at 6 p.m.

Citizens may participate online at nflroads.com/VPH or by phone at (562) 247-8321 and enter access code 586-531-094. Citizens who are unable to participate virtually may attend the hearing in person at the FDOT Urban Office Training Center located at 2198 Edison Avenue, Jacksonville, FL 32204. Both virtual and in-person participants will be given equal opportunity to ask questions and make oral statements that will become part of the public hearing record.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter or at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
