### **Heckscher Drive Resurfacing Project to Begin May 17**

**Jacksonville, Fla.** – A project to resurface approximately 2.5 miles of roadway along Heckscher Drive (State Road 105) from west of Busch Drive east to the Fuel Farm is scheduled to begin May 17.

Contractor Preferred Materials Inc. is expected to complete the \$3 million project in early 2020, weather and schedule permitting. In addition to milling and resurfacing, construction activities will include base work, shoulder treatment, drainage improvements, curb and gutter repairs and highway signage replacement.

The existing posted speed limit of 45 miles per hour will remain in place throughout the project. Earthwork is expected to take place during daytime hours, while paving work may occur overnight as well as during the day. No lane closures will be permitted from 6:30 to 8:30 a.m. and 4 to 6 p.m. Monday through Friday. When lane closures are needed, drivers will be alerted in advance via portable, changeable message signs. Lane closure notices are available online at [www.nflroads.com](http://www.nflroads.com).

The Florida Department of Transportation urges motorists to always follow the speed limit and stay within the limits of orange cones and barrels while traveling through construction zones. For more information regarding this project and others in District Two, please visit [www.nflroads.com](http://www.nflroads.com) or contact FDOT personnel at 904-831-FDOT.
