I-95 at Zoo Parkway and U.S. 17 Interchange Resurfacing Starts July 26

JACKSONVILLE, Fla. – Work on a resurfacing project on I-95 at the Zoo Parkway (State Road 105/Heckscher Drive) and Main Street (U.S. 17) interchange is scheduled to begin Monday, July 26.

Preferred Materials, Inc. was selected to complete the \$3.4 million project, which consists of milling and resurfacing, base work, drainage improvements, curb and gutters, lighting, highway signage, sidewalks, guardrail, utility work and other incidental construction. In addition, two railroad crossings within the project limits, on Heckscher Drive and Zoo Parkway, will be resurfaced.

Construction within the work zone, from Broward Road to Rota Avenue, will occur weekdays, weekends and weeknights. No lane closures or detours are allowed during peak travel times or on holidays or special events. Digital message boards will be placed several days ahead of time notifying drivers of upcoming lane closures or detours associated with the work.

The project is estimated to be completed by spring 2022, weather and unforeseen circumstances permitting.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter or at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook.

Improve Safety, Enhance Mobility, Inspire Innovation

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
