ICYMI: FDOT to Host July 19 Hybrid Safety Workshop Highlighting U.S. 19/NW 140th Street Intersection Improvements

CHIEFLAND, Fla. – The Florida Department of Transportation (FDOT) will host a safety workshop inviting citizen input and questions regarding improvements to the U.S. 19/NW 140th Street intersection, part of the U.S. 19 (State Road 55) Milling and Resurfacing project (FIN 443629-1).

The change employs a Restricted Crossing U-turn intersection (RCUT) design at the U.S. 19/NW 140th Street intersection. According to the Federal Highway Administration, this proven safety measure reduces the likelihood of crashes that produce fatalities or injuries by 54% at similar intersections.

The hybrid safety workshop will be held Tuesday, July 19 at the FDOT Chiefland Maintenance Office located at 1820 South Young Boulevard, Chiefland, FL 32626. Project staff will be available to answer questions in-person, online at nflroads.com/VPH or by phone at (631) 992-3221, access code 380-392-040.

Citizens may drop by anytime between 4 and 6 p.m. to learn more about this safety improving design, ask questions and view renderings of the project.

FDOT asks motorists to always obey the posted speed limit, do not drive distracted, never drive impaired and always buckle up! Let's get everyone home. Learn more about Florida's statewide initiative to reduce transportation-related crashes by visiting TargetZeroFL.com.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on Twitter, at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
