ICYMI: Jacksonville Rail Trail closure in Baldwin rescheduled

Jacksonville – As part of the Baldwin Bypass construction project, the closure originally scheduled Wednesday, June 20 through Tuesday, July 3 for the Jacksonville “Rails to Trails” trailhead in Baldwin was rescheduled to Thursday July 5 through Wednesday, July 18.

The closure is necessary to safely complete beam setting, weather and unforeseen circumstances permitting. Flaggers will also be on-site for traffic control.

The project includes constructing a new four-mile, four-lane divided highway beginning north of the I-10 westbound on-ramp and two new signalized intersections at Beaver Street (U.S. 90) and Brandy Branch Road. Plans also include building an overpass across two CSX railroad crossings and an additional overpass over the Jacksonville-Baldwin Rail Trail to alleviate traffic congestion and improve operational efficiency of U.S. 301, which is part of the National Highway System and Florida’s Strategic Intermodal System (SIS).

Superior Construction Company began the \$60 million bypass project in mid-August of 2018 and is currently scheduled to complete the work spring 2020.
