I-95 southbound single lane closure at U.S. 17 in Nassau County Conduit installation for ITS freeway project

Jacksonville – Motorists can expect a single, outside travel lane closure on Interstate 95 southbound at U.S. 17 over the next two weeks from 9 p.m. to 6 a.m. on the following days, depending on weather and unforeseen circumstances:

- Monday, July 9 through Thursday, July 12
- Monday, July 16 through Thursday, July 19

The on ramp from U.S. 17 will have a minor lane shift but will remain open. Flagging operations will be utilized on U.S. 17 under the interstate to manage the flow of traffic.

The single lane closure is for installation of bridge mounted conduit (which carries fiber optic cables for the new CCTV cameras and overhead dynamic message signs) on the west side of the bridge.

The 17-mile ITS Freeway Management project began in November 2017 with completion anticipated in spring 2019, depending on weather and unforeseen delays.

FDOT hired SICE as the contractor to complete this project for \$4.5 million.
