### **Nighttime Detour and Traffic Pacing Operations Along I-10 Planned for Thursday Night**

**JACKSONVILLE, Fla.** – As part of FDOT's I-10 from I-295 to I-95 widening project, I-10 west will be detoured and I-10 east will see traffic pacing operations Thursday, December 2 from 10 p.m. until 3 a.m. while crews perform overhead utility work, weather and unforeseen circumstances permitting.

**I-10 Eastbound Pacing Operations:** Drivers can expect increased traffic between Blair Road and Edgewood Avenue due to traffic pacing operations. Drivers can also expect to see law enforcement assisting with these operations.

Traffic pacing is a traffic control technique used to slow but not stop traffic to facilitate short duration work operations without an extensive detour or diversion. Marked law enforcement vehicles will slow the traffic to safely move them through the corridor without requiring a detour.

**I-10 West Detour:** Drivers will be detoured at the Luna Street exit, right on Luna Street, left on Highway Avenue and left on Lane Avenue to reconnect with I-10.

FDOT hired Superior Construction to complete this \$174.5 million project in early 2025, weather and unforeseen circumstances permitting.

Give the gift of safety this holiday season by buckling up. Every trip. Every time.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
