Intersection Improvements to Begin on 8th Street at the I-95 Interchange

Jacksonville – Construction is scheduled to begin soon on 8th Street (State Road 114) from Francis Street to James Hall Drive, including the entry and exit ramps for Interstate 95 within the project limits.

The project includes removing and replacing sidewalk ramps, curb and gutter work, pedestrian signal updates, highway signing and pavement striping.

Traffic will be maintained in accordance with FDOT design standards throughout the project. Drivers can expect periodic single-lane closures on roadways and bridge ramps during off-peak driving hours.

Lane closures may occur from 7 p.m. to 6:30 a.m. Sunday through Friday. Lane closures may occur anytime Saturday and Sunday except during holidays and special events. JTA bus stops will remain in place, and bus routes will be operational throughout construction. Sidewalk closures may occur during the project; however, pedestrian detours will be provided.

Florida Safety Contractors Inc. is expected to complete this project in early 2019, weather and unforeseen circumstances permitting.

The Florida Department of Transportation urges motorists to always follow the speed limit and stay within the limits of orange cones and barrels while traveling through construction zones. For up-to-date information regarding construction projects and lane closures, please visit www.nflroads.com or contact FDOT personnel at 904-831-FDOT.
