St. Johns Parkway/County Road 2209 detour scheduled Friday night

St. Johns County – St. Johns Parkway/County Road 2209 from south of Durbin Park to North Arabella Way will be closed Friday, February 16 from 9 p.m. through Saturday at 6 a.m. (February 16-17). The closure, weather permitting, is needed to install a pedestrian bridge over County Road 2209/St. John's Parkway for the State Road 9B construction project.

Southbound St. Johns Parkway/County Road 2209 traffic will detour east on Russell Sampson Road and west on County Road 210. Northbound traffic will detour east on County Road 210 and north on Russell Sampson Road.

If the necessary work is not completed Friday, February 16 the detour will be implemented Saturday, February 17 from 9 p.m. to 6 a.m.

State Road 9B, the new four-lane divided highway, will connect I-95 in Duval County to St. Johns Parkway/County Road 2209 in St. Johns County. The project includes overpasses at Race Track Road, Durbin Creek and Russell Sampson Road and a connector road, Peyton Parkway, from Race Track Road to State Road 9B. The connector road will provide direct access to State Road 9B. Additionally, a pedestrian bridge will be installed over St. Johns Parkway at 9B linking the sidewalks on both sides of the road.

Construction of the 2.3-mile extension of 9B into St. Johns County began in August 2015 and is scheduled for completion in summer 2018.

For more information regarding construction projects, please visit www.nflroads.com or contact FDOT personnel at 904-831-FDOT.
