State Road 206 railroad crossing resurface set for June 19

Jacksonville – The railroad crossing on State Road 206 between I-95 and U.S. 1 is scheduled to close to replace the crossing surface. Resurfacing work and detours are expected to begin Tuesday, June 19 at 5:30 a.m. through Thursday, June 21 midnight.

Motorists wanting to travel eastbound on State Road 206 across the railroad tracks will detour north on I-95 then west on State Road 207/State Road 312 and south on U.S. 1.

Motorists wanting to travel westbound on State Road 206 across the railroad tracks will detour north on U.S. 1 then west on State Road 312/State Road 207 and exit at I-95 back to State Road 206.

Rail is an important component of a healthy economy. It is a cost-effective way to move people and goods efficiently, ultimately saving companies and people money. Rail is also a part of Florida's Strategic Intermodal System (SIS).

The SIS was established to:

- Efficiently serve the mobility needs of Florida's citizens, businesses and visitors; and
- Help Florida become a worldwide economic leader, enhance economic prosperity and competitiveness, enrich quality of life and reflect responsible environmental stewardship.

The community's patience is appreciated during this closure so that FDOT and Florida East Coast Railway (FEC) can maintain this important method of transportation.
