Travel Advisory: State Road 200 Lane Closure Schedule

Yulee, Fla. – This advisory is to inform community leaders and interested parties about upcoming, scheduled lane closures, traffic shifts and other construction activity on State Road 200/A1A. For a complete list of scheduled lane closures in northeast Florida, interested parties may visit: www.NFLRoads.com/TrafficReport.

Drivers can also setup real-time traffic alerts from FL511, a free service offered by the Florida Department of Transportation (FDOT). Motorists can visit www.FL511.com or call #511 for this up-to-date information.

The Florida Department of Transportation has permitted multiple lane closures as part of the State Road 200/A1A (S.R. 200) improvement projects. Below are several planned lane closures, weather permitting, planned for September 7 through September 12. Certain activities may require unexpected lane closures for the safety of both drivers and construction workers.

Notable: A single lane closure will be in place on State Road 200/A1A eastbound beginning east of Semper Fi Drive through the I-95 intersection on Sunday evening, September 8th from 5 p.m. to 6 a.m., weather and schedule permitting. The single lane closure will influence the I-95 off-ramp traffic flow.

Drivers attempting to exit I-95 southbound onto State Road 200/A1A eastbound will be detoured west to the first median crossover just west of Semper Fi Drive, where they can make a U-turn to join State Road 200/A1A eastbound. U-turns will not be permitted at Semper Fi Drive.

Drivers attempting to exit I-95 northbound onto State Road 200/A1A westbound will be detoured east to the median at Mentoria Road where they will be able to make a U-turn to join State Road 200/A1A westbound.

Daytime lane closures:

Interstate 95: Lane closures are not expected at this time.

State Road 200:

- The westbound right lane from Chester Road to Lofton Creek is expected to be closed Saturday, September 7 from 7 a.m. until 5 p.m.

Nighttime lane closures:

Interstate 95:

- Southbound Interstate 95 lane closures are expected near exit 373 nightly, from 9 p.m. until 5:30 a.m. Monday, September 9th through Thursday, September 12th. The work is associated with the Interstate median and Interstate inside shoulder. Note: this activity may require multi-lane closures on Interstate 95. The Interstate ramps will not be impacted.

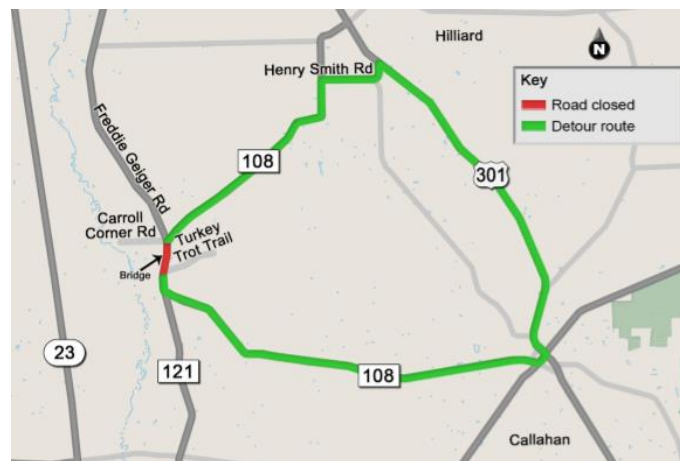

State Road 200:

- Eastbound State Road 200 lane closures are expected between Semper Fi Drive and Mentoria Road nightly, from 9 p.m. until 6:00 a.m. Monday, September 9th through Thursday, September 12th. The work is associated with temporary striping.

Nassau County Advisory: While unrelated to the S.R. 200 corridor, interested parties may appreciate the following information:

The Florida Department of Transportation has temporarily closed a portion of County Road 121/Baldwin and Saint George Road between Turkey Trot Trail and Carroll Corner Road.

The closure will be in place until rehabilitation work is completed on a bridge culvert damaged from erosion. Northbound and southbound drivers on County Road 121 will detour to U.S. 301 via County Road 108 and Henry Smith Road. More information about this project can be found by visiting www.NFLRoads.com.

Detour map of Nassau County bridge repair (work performed by FDOT)

Throughout construction, drivers are encouraged to plan ahead, use caution and follow the speed limit. Construction is a temporary inconvenience toward a more permanent transportation solution.
