## Travel Advisory: State Road 200 Lane Closure Schedule

**Yulee, Fla.** – This advisory is to inform community leaders and interested parties about upcoming, scheduled lane closures, traffic shifts and other construction activity on State Road 200/A1A. For a complete list of scheduled lane closures in northeast Florida, interested parties may visit: [www.NFLRoads.com/TrafficReport](http://www.NFLRoads.com/TrafficReport).

Drivers can also set up real-time traffic alerts from FL511, a free service offered by the Florida Department of Transportation (FDOT). Motorists can visit [www.FL511.com](http://www.FL511.com) or call #511 for this up-to-date information.

The Florida Department of Transportation has permitted multiple lane closures as part of the State Road 200/A1A (S.R. 200) improvement projects. Below are several planned lane closures, weather permitting, planned for May 15 through May 22. Certain activities may require unexpected lane closures for the safety of both drivers and construction workers.

**Noteable:** FDOT crews will be conducting traffic pacing operations on I-95 northbound from north of the Airport Road entry ramp to just north of the State Road 200 exit ramp Sunday, May 17 from 6 p.m. to 5 a.m. This work is necessary as crews install overhead signage and will not impact southbound I-95.

Traffic pacing is a traffic control technique used to slow but not stop traffic to facilitate short-duration work operations without requiring drivers to follow a detour route. Marked law enforcement vehicles will slow traffic to safely move drivers through the corridor. Additionally, variable message boards will be used to alert motorists of the operation.

### **Daytime lane closures:**

**Interstate 95:** None at this time.

### **State Road 200:**

- The westbound left lane of State Road 200 from Barnwell Road to David Hallman Parkway is expected to be closed Saturday, May 16 from 7 a.m. to 6 p.m.

### **Nighttime lane closures:**

**Interstate 95:** While lane closures are not expected, traffic pacing operations are expected to take place on Sunday, May 17 from 6 p.m. to 5 a.m.
