Upcoming Detour for St. Johns Avenue Intersection Improvements Project

JACKSONVILLE, Fla. – The Florida Department of Transportation will detour traffic on State Road 211 starting this Thursday for construction and implementation of the new roundabout configuration of the Herschel Street intersection.

The detour is currently scheduled for Thursday, March 17 at 7 p.m. through Monday, March 21 at 5 a.m., weather and schedule permitting.

As shown in the map below, drivers will be detoured to San Juan Avenue to Roosevelt Boulevard and Edgewood Avenue South. Traffic enforcement officers will be on site to assist drivers through the new configuration.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.

This intersection reconfiguration is a part of the State Road 211 Intersection Improvement Project from Herschel Street to Canterbury Street. More information is available here: www.nflroads.com/SR211.

March is bicycle safety month. When cycling always wear a helmet and ride in the same direction of traffic on the street. Obey all traffic signs, signals, and markings.
