## Wonderwood Drive Intracoastal Waterway Bridge repair project starting soon

**Jacksonville** – The Wonderwood Drive (State Road 116) bridge over the Intracoastal Waterway will undergo a repair and rehabilitation project starting in mid-October.

The work will take place under the bridge deck below the eastbound and westbound spans of the bridge. Crews will perform most of the work on platforms suspended under the bridge.

Contractors will begin mobilizing for the project the week of October 23, weather permitting. Eastbound lane closures will occur on the bridge during the first several weeks of construction to allow for the attachment of the work platform. No lane closures are allowed from 6 a.m. to 8 a.m. or from 4 p.m. to 6 p.m. After the platform is attached, lane closures on the bridge would be intermittent, if needed, and would not be scheduled during peak traffic times or on holidays or special events.

M & J Construction of Pinellas County is the contractor for FDOT's \$2.7 million project. It is scheduled for completion, weather or unforeseen circumstances permitting, in summer 2019.
