FDOT to Host June 4 Construction Open House for Hendricks Avenue (State Road 13) at San Marco Boulevard Intersection Improvements Project

JACKSONVILLE, Fla. – The Florida Department of Transportation (FDOT) will host a construction open house Tuesday, June 4 for the Hendricks Avenue (State Road 13) at San Marco Boulevard intersection improvements project.

Interested parties are invited to drop by FDOT Jacksonville Urban Office Training Center, located at 2198 Edison Avenue, Jacksonville, FL 32204, from 4:30 to 6 p.m. The informal open house will give the public the opportunity to learn about upcoming construction and discuss details with members of the project team. The open house will also be accessible online at nflroads.com/vph.

In addition to milling and resurfacing, project improvements include a realignment of the crossing that will provide enhanced pedestrian and bike movements through the intersection. Other safety improvements include new traffic signals, new roadway lighting, pedestrian safety upgrades, bike lane enhancements, widening of the roadway and sidewalks, new signage, and other incidental construction.

Stay informed about lane closures and roadwork in your area by following FDOT District 2 at [@MyFDOT_NEFL](https://twitter.com/MyFDOT_NEFL) on X (formerly known as Twitter), at [MyFDOTNEFL](https://www.facebook.com/MyFDOTNEFL) on Facebook or by visiting nflroads.com.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
