

I-95 PROJECT DEVELOPMENT & ENVIRONMENT (PD&E) STUDY

from I-10 to Beaver Street | Jacksonville, Duval County, Florida

SUBSEQUENT PUBLIC HEARING

FINANCIAL PROJECT ID (FPID) NO. 442778-1 | EFFICIENT TRANSPORTATION DECISION-MAKING (ETDM) NO. 14387

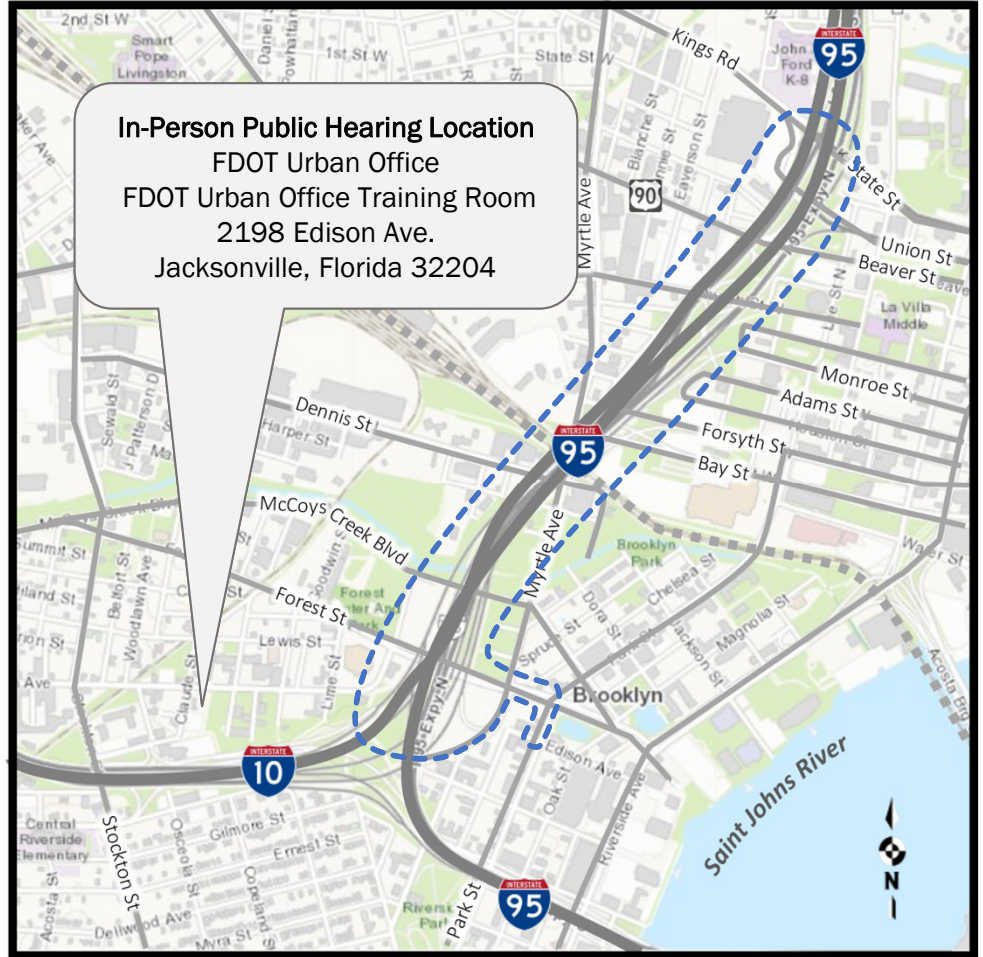

The Florida Department of Transportation (FDOT) District 2 invites you to a Subsequent Public Hearing to discuss proposed improvements to I-95 from I-10 to Beaver Street, in Jacksonville, Duval County, Florida.

PROJECT HISTORY

The Florida Department of Transportation (FDOT) is conducting a Project Development & Environment (PD&E) Study to evaluate alternatives to improve safety, capacity, and traffic operations on I-95 from I-10 to Beaver Street.

FDOT previously held a virtual and in-person public hearing in January and February 2023, since that time, changes have been made to the project. Stakeholders are invited to a subsequent public hearing to review these changes and provide comments regarding these proposed improvements.

The proposed project will rehabilitate and replace the deck of the Myrtle Avenue Bridge (Bridge No. 720163) as well as add up to two 12-foot travel lanes in each direction on I-95. Access management changes are also proposed and are summarized on the back of this flyer.

ENGAGE WITH US!

For your convenience, there are several options to participate in the hearing: including a virtual/online option and an in-person option. All participants, regardless of the platform they choose, will receive the same information about the project. All comments received in-person, virtually, electronically, or by mail will be given equal consideration.

VIRTUAL/ONLINE OPTION
Monday, December 2, 2024

Open House: 5:30 pm - 6:00 pm
Presentation & Public Comment Period: 6:00 pm

Register in advance at: www.nflroads.com/vph, or

IN PERSON OPTION
Tuesday, December 3, 2024

Open House: 4:30 pm - 6:00 pm
Presentation & Public Comment Period: 6:00 pm

Location:
FDOT Urban Office Training Center
2198 Edison Avenue
Jacksonville, FL 32204

ACCESS MANAGEMENT

Access Management is the careful planning of the location, design and type of access to properties, businesses and homes. This also includes driveways and median opening guidelines. Access Management serves to promote safe and efficient movement of people and goods by reducing conflict.

FDOT is recommending the following access management changes since the 2023 public hearing:

1. The removal of I-95 southbound exit ramp to Church Street
2. The removal of the Beaver Street roundabout
3. Modifications to the connecting I-95 ramps to and from Church Street, Beaver Street, and Union Street
4. The removal of the Park Street median modifications from I-95 to Edison Avenue

For detailed information about these access changes, please review the public hearing exhibits. If you have concerns about access that affect your property or business, you may appeal to the Access Review Committee and request an opportunity to present your concerns in writing by contacting:

ACCESS MANAGEMENT REVIEW COMMITTEE
